

Redlands Adventist Academy

Rejoice Abide Adore

October 2019

Dear Family, Friends, and Supporters,

In September, we thanked you for generously participating in Redlands Adventist Academy's (RAA) fundraising projects. During the past two years, with your financial support, we raised \$150,000 for the installation of air-conditioning in the gymnasium. Our ability to make significant improvements to RAA is due to the united efforts of donors, constituent communities, and the various decision-making entities.

We want to continue the development conversation started in September, regarding the funds originally raised for air-conditioning in the gymnasium. As we moved further along in our implementation process, the feasibility study revealed some previously unknown factors, causing the original estimate to soar.

The updated estimate amount for adding air-conditioning to the gymnasium gave administration pause, causing us to spend the first quarter of this academic year taking the following actions:

- Formation of a board-chosen strategic planning committee
- Obtaining approval from previous donors for re-allocation of funds
- Soliciting architectural design input for air-conditioning, multiple-purpose auditorium space, and remodel of locker room

We are committed to using your graciously donated funds, according to your expressed wishes, to make the biggest impact possible on our students!

Thank you in advance, for your support. We look forward to continuing our partnership now and in the future!

Working together in HIS service,

Larry Rich M. Ed.
